During the 2000-2001 school year, the students of Jason Gnegy's American History class interviewed local World War II veteran's. The title of the project was "Chronically Local History." The class received a generous \$1,110 grant through the MEEMIC Foundation to purchase a digital camera and some other peripherals. Below are links to each of the student's interviews.

A special thank you to all of the veteran's who participated in the project, not only did you help preserve our freedom, but you also helped a younger generation learn the true definition of patriotism.
