# The Winding Road

The years have been long and we all have traveled the winding road that pave the way from adolescence to adulthood. At times the road seemed narrow and dark causing us frustration and confusion as we began to question whether or not we were headed in the right direction to the freeway. Sometimes it felt as if we were on cruise control and nothing could go wrong. As this road comes to an end we can all be proud of our abilities that enabled us to avoid

the obstacles and have patience with the detours. Some will be overwhelmed by the freeway and diversity found as we enter the freeway of life... ■ Aaron Glass
