CLASS OF 2000

Class Song— "Forever Young" By: Rod Stewart

Class Flower— The Yellow Rose

Class Color— Silver

Class Quote— "What lies ahead of you and what lies behind you is nothing compared to what lies within you."

I almost got it!— No folks, Adam Tury is not talking about picking his nose. He just got the whole concept of football. He shows his excitement by nodding his head.

Breaking all the rules— Animal activists cringe at the sight of Eric Nephew's real fur coat. "Hey, it's all for fashion," says this school's most famous pimp. Eric prides himself in knowing that not one person looks as good as him in genuine fur.

"Oh my gosh! WOW!"— Who went and said physics couldn't be fun? Just tell that to the elite members of the Physics Club. They do all sorts of neat things, like experiments.

This is football, not wrestling— These tough jocks seem to have forgotten what sport they were playing. They decided that maybe it was time to get an early start on the winter sport. Even though Mr. Acre is the wrestling coach, he still scratches his head in confusion.
