Dreams Become Reality

Will We See Her In Space Soon?

Darcy Lewis, a senior at SJHS has had the ability to make many of her goals and dreams come true. Darcy, who has been in band for six years plays the flute. "In sixth grade I wanted to play sax, but they said my hands were too small so I chose flute because it sounds pretty and it's little," said Lewis. She has won many awards, has been in pit orchestra for *Oliver*, (this year's musical) and is currently "trying to survive track!" she commented. Darcy's musical talents don't stop at that, she plays drums a little and is also playing the sax now.

Darcy was chosen as one of the five representatives for Homecoming 1985, which was one of her many dreams. "Being on the court was my dream-come-true. It was really special to me because I really like a lot of people in this school and I want to be friends with them all. Having them even consider me for the court was the biggest honor in the world!" she said.

Not only is Darcy friendly and musically talented, she is also outstanding academically. She has received Academic Achievement Awards and is a member of the National Honor Society. Darcy will be attending Michigan State University and plans to major in French and Education. Suzi St. Johns, who is not only a close friend of Darcy's but also her first cousin said, "I am really proud of her. She set goals and goes after them!"

Darcy has had many dreams come true and has reached many of her goals but she has yet another one. Darcy would like to live in space. "Some day I will ride the Space Shuttle and I'd love to be one of the first people to live in space. In ten years I see myself either living it up in Paris, teaching French at SJHS, or flying to the moon!" Whatever Darcy is doing, it will be what she wants. She sets her goals and makes her dreams come true.
