

TRAVEL TIME

SUNBURN STRIKES AGAIN

Imagine, the Bahamas, Daytona Beach, New York, Las Vegas, or even Aspen Colorado. Would you like to travel to any of these places? For some students these places, and many others, are no longer a fantasy. They are either planning to go to these places, or many have already been. There are also those who would like to travel to a certain place, but for one reason or another, the trip is out of the question until sometime in the future.

Senior Mike Potts, said "I would like to go to Aspen because the skiing is great and the partying is even better. "For students like Mike, trips like this one are only a dream

this year, but, maybe next year the dream will come true.

There are also those who have traveled to a certain place and really enjoyed it. Some of the places commonly traveled to by students include such cities as Washington D.C., Chicago Ill., New York, Los Angelos, and New Orleans. Senior Matt Brocker, who traveled to Houston TX. said, "Houston Texas was my favorite place because the weather was warm and the people were nice, especially the girls."

Many were planning to go south over spring break. Senior Scott Ferguson, said "I am planning to go to Ft. Lauderdale, Florida for some re-

laxation in the beautiful sun."

Scott could be classified as a "typical senior". He's the type who travels to the warm climates during spring break, has rowdy parties, gets sunburned, and then returns to wherever he calls home to nurse his terrible sunburn.

So whether or not you dream about going to some of these places or have already been there, traveling is an exciting way to entertain yourself when you are tired of sitting around home.
