A Chance To Be Rich

It's almost 7:30. Time to turn on TV and watch someone win big bucks. No, it's not the "Wheel of Fortune." It's the Michigan lottery.

Every Wednesday and Saturday the Lotto numbers are drawn. People enter this contest by paying \$1 for a set of six numbers. If picked, the winner gets a jackpot of anywhere from 1 to 33 million dollars. Anyone

with five or four numbers may win a small sum of cash as well. "I won \$70 with four numbers once," said senior Aaron Brown.

To be eligible for the lottery you must be 18 years of age. "I think it's a good idea. You have to be 18 to gamble (where it's legal) and I feel playing the lottery is sort of gambling," said senior Jenna Werbish.

Senior Troy Wierman said, "If I won the Lotto I would buy a car, pay for my college education, and then put the rest in the bank and live off the interest."

The real "Wheel of Fortune" might make a lucky senior a millionaire.
