DECISIONS! DECISIONS!

On Valentine's Day, students enjoy extra treats. Senior Kim Woodhams plans to attend Baker College in the fall.

*With college in the near future,
question is are we*

Prepared?

Preparing for college is something that many seniors must do. During a high school career many decisions are made that lead to an area or field a student pursues later. But, do they feel prepared to explore the real world? Are they prepared for college?

Many students feel that the answer to this question is yes.

"Yes, I've taken classes in high school that hopefully have prepared me enough to be ready for college next year," said Senior Alexa Vitek. This point of view is also shared by others.

"I feel that I am prepared because I have worked hard throughout high school and I'm finally ready to get out and

experience new things.

The classes that prepare the students the best for college came from a wide arrange of fields and teachers.

"The classes that prepared me the best are my computer classes, especially Mrs. Deveau's Word Perfect class," said Senior Sandy Spatrisano.

"I think that Mrs. Howey's A.P. Calc class is the one that most prepared me," said Senior Dan Snyder.

"I think that AP Biology has prepared well for college classes," said Senior Bruce Cain.
