

Good and Bad of High School

Years come and go, but the memories stay forever

Every Spring, seniors begin to reminisce about the three prior high school years. Some look upon them with happiness and some look back with regret. In any case, those years will be ones that each senior will never forget.

"The best thing that happened to me was in my Junior year, when I met my boyfriend

Ryan," said Senior Gwen Martinez.

Senior Nicole Wilson recalls "My freshman year in Mr. Japinga's English class, I fell asleep. Shelby Ross woke me up, but when I got up my legs had fallen asleep and I fell tipping over my desk. My books flew everywhere."

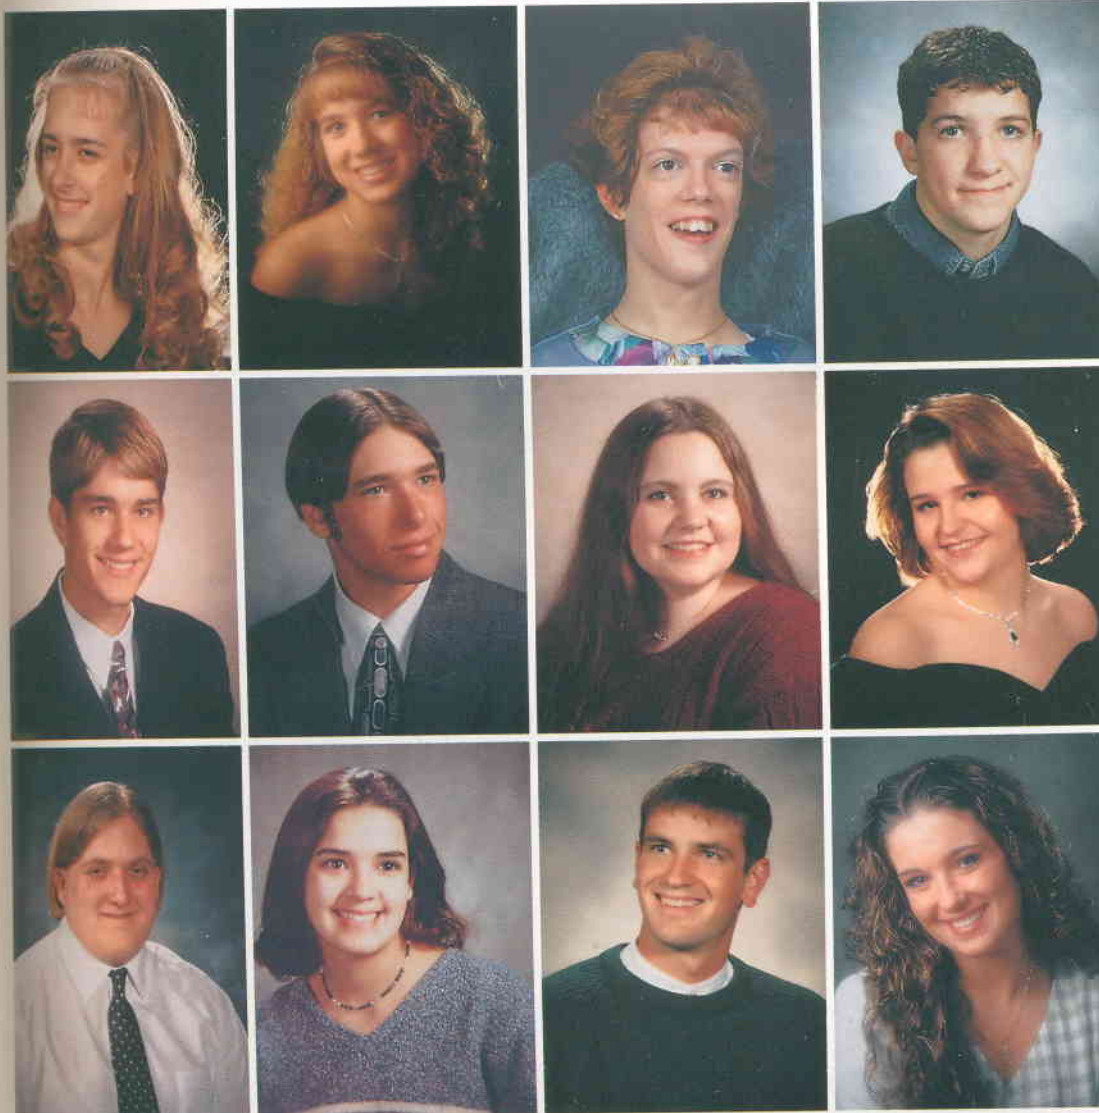

"My worst experience during high school was losing a very good friend of mine to a car accident. I

will always remember Miriah Pease," said Senior Trisha Hudson.

"In the beginning of my Junior year, I had jaw surgery and had to have my jaw wired shut for six weeks. My face was swollen and I couldn't eat or talk. It was horrible!" said Senior Jessie Allen.

These are the days that will always be remembered. Heather Wing

"I really don't think I had a really bad experience. Everything was fun and very worth while," said Senior Elissa Munger.
