

Tara Martin is going with 9 friends to South Padre in Texas. "It will be fun to party and hang out with my friends."

"I'm going to visit my family in Brazil for the first time in 12 years," said Senior Melanie de Almeida about the senior trip she was taking.

Getting Away..

Seniors take vacations to escape reality

Bored of the same everyday routine of St. Johns? Need to find an escape from it all? Well, many seniors found an escape by taking trips to a variety of locations. Some students planned trips for spring break. "I plan on going to Nevada with my friend Kurt Raffler and his dad. It should be really fun going skiing and hanging out," said Senior Curt Shannon. The majority of students planning trips for spring break were counting down the days. "The anticipation of spring break is almost as bad as knowing that it will only

last one and a half week and then it's all a memory." said Senior Alicia Ladd. Some of the seniors also have school trips planned or trips planned for after graduation. Matthew Markman has big plans for right after graduation. "My friends and I are going down to Cedar Point for awhile. It's not just going to be a vacation but we hope to get good jobs at Cedar Point too," added Markman.

There were many options for students to explore for getting away from it all.
